# Effective absorption and protection for all types of wounds

Perfect wound protection without compromise

## Swabs

Our range of medical swabs are designed with a focus on the highest standards of care and precision. We specialize in producing high-quality compresses that meet the diverse needs of healthcare professionals and patients alike. Made from premium materials, our compresses are soft, highly absorbent, and gentle on the skin, ensuring comfort and effectiveness during medical procedures.

<b>Products</b>	<b>Sizes</b>
Gauze swabs	5 cm x 5 cm   7,5 cm x 7,5 cm 10 cm x 10 cm   10 cm x 20 cm
Non-woven textile swabs	5 cm x 5 cm   7,5 cm x 7,5 cm 10 cm x 10 cm

## Swabs

---

### Gauze swabs

---

**Usage:** skin disinfection, mechanical barrier, spot compression, exudate absorption

**Material:** bleached gauze made from 100% cotton with a weave density of 17 threads/cm<sup>2</sup>

**Properties:** folded into 8 layers, excellent absorbency, edges are unhemmed and non-fraying

## Swabs

---

### Non-woven textile swabs

---

**Usage:** skin disinfection, mechanical barrier, spot compression, exudate absorption

**Material:** non-woven fabric made from a blend of 70% viscose and 30% polyester with a basis weight of 30 g/cm<sup>2</sup>

**Properties:** the fabric leaves no microscopic dust, with absorbency comparable to gauze swabs

# Secure fixation without skin irritation

Comfort and reliability with every use

## Adhesive tapes

Our product range offers medical adhesive tapes designed for safe and gentle application on the skin in various healthcare settings. These tapes ensure reliable adhesion, easy removal and comfort, making them ideal for wound care, securing bandages and other medical devices. They are a trusted choice for professional use.

Products	Sizes
Lutraelastic, elastic non-woven tape for full-area fixation	5 - 20 cm x 10 m
Lutrafilm P.E. tape	1,25 - 5 cm x 9,15 m
Lutraplast, adhesive fabric tape	1,25 - 10 cm x 5 - 10 m
Lutrapore fixation non-woven tape	1,25 - 5 cm x 9,15 m
Lutrasil, rayon fixation plaster white	1,25 - 5 cm x 9,15 m

## Adhesive tapes

---

### Lutraelastic

---

**Usage:** for covering and securing bandages, especially suitable for fixing round body parts and joints

**Material:** adhesive tape with a non-woven fabric carrier coated with an adhesive layer

**Properties:** exceptionally breathable, allowing air and water vapor to pass through, the skin can breathe and does not sweat

## Adhesive tapes

---

### Lutrafilm

---

**Usage:** for the secure fixation of all types of bandages, for transparent fixation (allows visual inspection) of cannulas, probes, tubes, catheters, etc.

**Material:** porous, transparent adhesive film

**Properties:** The porous film allows air and water vapor to pass through, making it very well tolerated by the skin. The adhesive can be easily torn both crossways and lengthways and it holds firmly. It can be removed painlessly and without residue, hypoallergenic.

## Adhesive tapes

---

### Lutraplast

---

**Usage:** for securing all types of bandages and for fixing probes, cannulas, etc.

**Material:** fabric adhesive tape with zinc oxide adhesive

**Properties:** suitable for patients with normal skin sensitivity, while reliably holding in place

## Adhesive tapes

---

### Lutrapore

---

**Usage:** for covering and securing bandages or for fixing medical devices on the most sensitive parts of the body

**Material:** white non-woven fabric plaster

**Properties:** Exceptionally breathable, allowing air and water vapor to pass through, enabling the skin to breathe and preventing sweating. The tape adheres firmly yet removes painlessly. Designed for excellent tolerance upon contact with skin, it is suitable for patients with very sensitive skin.

## Adhesive tapes

---

### Lutrasilk

---

**Usage:** for gentle fixation of all bandages, securing cannulas, catheters and probes

**Material:** made from artificial silk

**Properties:** Suitable for patients with sensitive skin – hypoallergenic, allows water vapor to pass through, enabling the skin to breathe. The tape holds excellently and can be removed painlessly without leaving residue.

# Quick assistance and protection in any situation

Safety and security come first

## First aid supplies

Essential first aid supplies designed to ensure a quick response to injuries and health protection in various situations. They are crafted to provide immediate support, stabilization and protection against adverse conditions.
